January 6, 2009

Dear Members,

AllWealth Federal Credit Union has recently experienced some minor Debit Card Fraud. Concurrently many financial institutions across the region and nation are experiencing the exact same issues. First and foremost AllWealth FCU was not compromised electronically or any other way. Your information has been and still is protected. Debit Card Draft Accounts were the only accounts affected. No other type of account was affected at all.

Please pay particular attention to your December 2008 and January 2009 statements for unusual transactions from the states of New York, New Jersey, Florida, Michigan, and Texas from December 30, 2008 – January 9, 2009. Please contact the credit union if you discover any unusual activity.

To combat this fraudulent activity AllWealth FCU has placed a temporary freeze on Debit Card Purchases from the states of New York, New Jersey, Florida, Michigan, and Texas. Your Debit Card may still be used as an ATM Card in these states mentioned.

AllWealth apologizes for any inconvenience caused by this ban and will notify you when this changes. No member has lost a single penny due to this fraud. Your credit union is on top of these issues and continues to monitor the situation.

Sincerely,

Rudy Rattman
Chief Executive Officer
Chief Financial Officer
